TELENURSING CONFERENCE

EMPOWERING CARE PROFESSIONALS –THE PATH TO DIGITAL AND REMOTE CARE

The Telenursing project explores innovative solutions to support patient care in remote or restricted environments, with potential applications in emergency situations, rural settings, and beyond. During this conference, we will present the project's outcomes, discuss the future of digital healthcare, and identify opportunities to expand the impact of remote care solutions across Europe.

📅 22 January, 2025
